

MISSION

In support of NISD's academic mission, the Department of Library Services provides support and leadership for campus librarians and library programs by delivering professional development, online circulation and library catalog, and centralized cataloging. This involves partnering and collaborating at the district and campus levels to integrate teaching and learning, to utilize up-to-date technology including print and electronic resources, and to demonstrate best teaching practices so that all Northside students have opportunities to achieve academically while in Northside and become lifelong learners.
